

General Introduction

Bald Knob National Wildlife Refuge, established in 1993, is one of over 565 national wildlife refuges administered by the U.S. Fish and Wildlife Service. The primary objective of the Refuge is to provide habitat for migratory waterfowl. The Refuge is located in White County, Arkansas.

Hunting, fishing, wildlife observation and photography, environmental education, and interpretation are priority public uses of the National Wildlife Refuge System. These wildlife-dependent uses are carefully managed on Bald Knob National Wildlife Refuge to ensure they are compatible with refuge purposes and provide safe, high-quality, low-impact, recreational opportunities. Users of the Refuge must obey all signs pertaining to visitation, access, and public use regulations. All public uses, including hunting and fishing, are conducted in accordance with state and federal regulations as supplemented by the following special refuge regulations.

Access and Vehicle Use

* The Refuge is closed to ALL other entry and public use November 9 - 10, 2019, during the Quota Gun Deer Hunt. Only Quota Gun Deer Hunt permit holders are allowed to enter or use the Refuge during this hunt and only for the purpose of deer hunting and the incidental take of beaver, muskrat, nutria, armadillo, coyote, and feral hogs.

Waterfowl sanctuaries, indicated on the refuge map, are closed to ALL entry and public use, including hunting and fishing, from November 15 through February 28.

Conventional vehicles may be used only on the Farm Unit and ONLY from March 1-November 14. Conventional vehicles must meet all applicable federal and state requirements regulating the use of licensed motor vehicles. Vehicles equipped with oversize tractor lug type tires are prohibited. Use of conventional vehicles is prohibited on the Mingo Creek Unit.

Motor vehicle (including ATVs, UTVs, etc) speed limit is 25 mph unless otherwise posted.

Recreational use of ATVs is not allowed. ATVs may ONLY be used September 1 to February 28 and ONLY to provide access for hunting. ATVs may be used after February 28 ONLY for goose hunting during the State Conservation Order.

An ATV is defined as a vehicle with a maximum tire pressure of 15 psi, maximum dry weight of 1550 lbs., and with tires having a maximum centerline lug depth of one inch. Only those vehicles originally designed by their manufacturer to be ATVs are allowed; mini-trucks or other modified off-road vehicles are prohibited.

Conventional vehicles and ATVs are not allowed in fields and must stay on maintained roads, levee tops, or established parking areas at all times.

A portion of the waterfowl hunt area (Core Waterfowl Area) will be closed from November 15 – February 28 to ALL public entry and use **after** 1 pm to reduce waterfowl disturbance and improve hunt quality (see map). During this period Coal Chute Road, Granary West Road parking area and Frackin Road will remain open to vehicular access. NOTE: This closure will NOT apply to all-day hunting for geese during the State Conservation Order.

Most refuge roads are open to the general public. However, roads may be closed any time conditions or other administrative needs warrant. A locked gate or other barrier, road closed sign, or no vehicle sign means the road is closed to ALL vehicle travel, but not to foot travel unless signed otherwise.

Parking of vehicles on roadsides that prevents the passage of extra-wide farm equipment is prohibited. Vehicles are subject to be towed at owner’s expense.

Personal watercraft (jet-ski, etc), hover craft, and airboats are prohibited.

Boats may not be left overnight on the Refuge.
