General Information

In 1989, the North Mississippi Refuges Complex (Complex) was established to manage U.S. Fish and Wildlife Service lands in the northern twenty-six counties of Mississippi. With its headquarters in Grenada, the Complex is responsible for the management of Coldwater River, Dahomey and Tallahatchie National Wildlife Refuges, plus smaller fee-title properties and floodplain and conservation easements. The habitat consists of bottomland hardwoods, early successional reforestation areas, agricultural fields, and moist soil units.

In order to provide traditional recreational opportunities, public hunting and fishing are permitted in designated areas during specific times of the year at a level compatible with the environment. Certain areas of the Complex may be closed for sanctuary or administrative purposes. Please refer to Refuge maps.

To ensure your safety and enjoyment while visiting the North Mississippi Refuges Complex, please take the time to become familiar with the following regulations.

General Refuge Regulations

The regulations listed below supplement the general regulations which govern hunting and fishing on National Wildlife Refuge areas as set forth in Title 50 Code of Federal Regulations. Hunting and fishing are in accordance with applicable state regulations subject to the following special conditions:

Individuals utilizing the Refuge are subject to inspection of permits, licenses, hunting and fishing equipment, bag limits, boats, vehicles and their contents by Service or state officers.

Each hunter must complete a Daily User Visitor Card (OMB Control Number 1018-0140) and display it on the dash of the vehicle so that the name is legible and clearly visible from the outside. Prior to leaving the Refuge, the card must be completed and deposited at one of the check stations/kiosks. If hunting deer, record the number harvested ("0" if no game harvested) and the sex and size data in the appropriate blocks. If hunting any other species, write in the name of the species next to "other" and the number harvested ("0" if no game is harvested).

Incorrect information reported on Daily User Visitor Cards or failure to return Daily User Visitor Cards after hunting could result in a Violation Notice and/or a seizure and/or forfeiture of harvested game.

A hunter cannot possess more than one Daily User Visitor Card at a time.

All Refuge lands are open during daylight hours only, with the exception of legal hunting activities.

Permit Information

Hunters and anglers sixteen years of age and older are required to have a \$15 North Mississippi Refuges Complex Hunting and Fishing Permit and all required state licenses in possession at all times while hunting or fishing on Refuge property.

All persons under 16 years of age, while hunting on the Refuges, must be in the presence and under the direct supervision of a licensed or exempt hunter at least twenty-one (21) years of age. A licensed hunter supervising a youth as provided in this section must hold all required licenses and permits.

A North Mississippi Refuges Complex Hunting & Fishing Permit can be purchased from any state license vendor or from the Mississippi Department of Wildlife, Fisheries, and Parks website at <http://www.mdwfp.com/license/hunting-license.aspx>. When purchasing the North MS NWR Permit ask for code 606. The permit is good one year from the date of purchase.

Stands left on the Refuge do not reserve hunting locations. Stands may be placed two days prior to the hunt and must be removed two days after the Refuge's deer season closes. Stands not in compliance with these regulations may be confiscated and disposed of by the Refuge staff.

Deer stands and/or steps cannot be nailed to trees nor can any blind or stand be attached to a tree by any metal object driven, screwed, or otherwise inserted into the tree.
