

## **Fat Pocketbook Conditions for Instream Sand and/or Gravel Mining**

1. A dredging plan shall be submitted to the U.S. Army Corps of Engineers, Regulatory Branch, and the U.S. Fish and Wildlife Service (Louisiana Ecological Services Office), which includes proposed mapped boundary locations (latitude and longitude coordinates of polygon corners), dredging dates, type of material to be dredged, duration, and the amount of material to be dredge in cubic yards. The plan shall be submitted two weeks prior to beginning the dredging operation.
2. The permittee shall be prohibited from dredging between dikes within a dike field.
