Mr. [REDACTED]

27 September 1993

Dear Mr. [REDACTED]:

A short note to thank you for allowing us to release male wolf 504 on [REDACTED] Farm on 25 August. Unfortunately 504 did not restrict movements to the release site and within 2 weeks had travelled at least 30 miles west. Perhaps we will have better luck pairing the female (505) that resides on your farm if we release a male during the breeding season (e.g. during January 1994). Of course, before conducting such a release I will call to secure your permission.

Thanks again for your willingness to help recover the red wolf.

Sincerely,

Mike Phillips
