

**SURVEY WINDOWS FOR FEDERALLY THREATENED, ENDANGERED, CANDIDATE, PROPOSED, AND “AT RISK”
(UNDER REVIEW) PLANT SPECIES IN SOUTH CAROLINA
FEBRUARY 2019**

SCIENTIFIC NAME	COMMON NAME	STATUS	SURVEY WINDOW
<i>Amaranthus pumilus</i>	Seabeach amaranth	T	July–October
<i>Amorpha georgiana</i> var <i>georgiana</i>	Georgia leadplant	ARS	Late April – October
<i>Amphianthus pusillus</i>	Little amphianthus or Pool sprite	T	late March–April
<i>Balduina atropurpurea</i>	Purpledisk honeycombhead or Purple balduina	ARS	August – October
<i>Carex impressinervia</i>	Impressed-nerved sedge or Ravine sedge	ARS	April – May
<i>Coreopsis integrifolia</i>	Ciliate-leaf tickseed	ARS	August – November
<i>Dionaea muscipula</i>	Venus flytrap	ARS	May – June
<i>Echinacea laevigata</i>	Smooth coneflower	E	late May–October
<i>Fimbristylis perpusilla</i>	Harper’s fimbristylis	ARS	July – September
<i>Gymnoderma lineare</i>	Rock gnome lichen	E	year round
<i>Helianthus schweinitzii</i>	Schweinitz's sunflower	E	late August–October
<i>Helonias bullata</i>	Swamp pink	T	April–May
<i>Hexastylis naniflora</i>	Dwarf-flowered heartleaf	T	March–May
<i>Isoetes melanospora</i>	Black spored quillwort	E	May–October
<i>Isotria medeoloides</i>	Small whorled pogonia	T	mid-May–early July
<i>Lindera melissifolia</i>	Pondberry	E	February–October
<i>Lindera subcoriacea</i>	Bog spicebush	ARS	March – August
<i>Lobelia boykinii</i>	Boykin’s lobelia	ARS	May – August
<i>Ludwigia ravenii</i>	Raven’s seedbox	ARS	June – October
<i>Lysimachia asperulaefolia</i>	Rough-leaved loosestrife	E	mid-May–June
<i>Macbridea caroliniana</i>	Carolina birds-in-a-nest	ARS	July – November
<i>Minuartia godfreyi</i>	Godfrey’s stitchwort	ARS	April – June
<i>Nuphar lutea</i> ssp. <i>sagittifolia</i>	Yellow pond-lily or Cape Fear spatterdock	ARS	April – October
<i>Oxypolis canbyi</i>	Canby's dropwort	E	mid-July – September
<i>Platanthera integrilabia</i>	White fringeless orchid	T	late July–October
<i>Ptilimnium nodosum</i>	Harperella	E	July–October in periods of low water
<i>Rhus michauxii</i>	Michaux's sumac	E	May–October
<i>Ribes echinellum</i>	Miccosukee gooseberry	T	March – April (flowering); May – July (fruiting)
<i>Rudbeckia heliopsidis</i>	Sun-facing coneflower	ARS	July – September
<i>Sagittaria fasciculata</i>	Bunched arrowhead	E	mid-May–July
<i>Sarracenia purpurea</i> var. <i>montana</i>	Mountain purple pitcherplant	ARS	April – May
<i>Sarracenia rubra</i> ssp. <i>jonesii</i>	Mountain sweet pitcherplant	E	April–October
<i>Schwalbea americana</i>	American chaffseed	E	May–August (1–2 months after a fire)

<i>Scutellaria ocmulgee</i>	Ocmulgee skullcap	ARS	late June – early October
<i>Sisyrinchium dichotomum</i>	White irisette or Reflexed blue eyed grass	E	late May–July
<i>Sporobolus teretifolius</i>	Wireleaf dropseed	ARS	August – September; following fire
<i>Trillium persistens</i>	Persistent trillium	E	early March–mid-April
<i>Trillium reliquum</i>	Relict trillium	E	mid-March–April
<i>Tsuga caroliniana</i>	Carolina hemlock	ARS	year round

E Federally endangered

T Federally threatened

C The U.S. Fish and Wildlife Service or the National Marine Fisheries Service has on file sufficient information on biological vulnerability and threat(s) to support proposals to list these species

P Proposed for listing in the Federal Register

ARS “At Risk” species; Under Review for potential listing

CH Species has designated Critical Habitat

These recommended survey windows were determined from species recovery plans and field observations.

For additional information about these species, please visit the U.S. Fish and Wildlife Service web page at <http://endangered.fws.gov>.
